Custom Configurations

We can build complete custom configured Systems and Servers to meet all of your needs or just make simple changes to one of our standard configurations.

Many optional cases are also available.

Open Office

Open Office by Sun Microsystems is the leading office software suite for word processing, spreadsheets, presentations, databases and more. It can read and write files from other common office software packages. It is easy to learn and if you already have files from another office package Open Office will probably read them with no difficulty. Many enterprises are turning to open Office to power their business. The flexible word processor, powerful spreadsheet, dynamic graphics and more meet all the requirements for an office software package.

Everything You Need to Power Your Business

Office Products has been in the computer business for over 20 years.

We were here yesterday.

We are here today, and we will be here tomorrow, providing solutions to problems and servicing our customers needs.

In today's modern office computing, printing, faxing, and e-mail need to be tightly integrated for easy document distribution and management.

At OPI we provide advanced and dependable integrated business solutions for our customers.

Prices subject to change without notice.

Please call 793-8479 or 800-658-1602 for current pricing and other available options.

Computer and option prices are Cash and Carry. Setup, transfer of data and loading of software would be handled at the time of installation if desired by the customer, and would be billable at an hourly rate.

Standard Warranty is for one year and is depot OPI. Extended warranties are available.
